Grow Your Excipient Business

YALI@DRUGPATENTWATCH.COM

Offer competitive pricing, anticipate change, and expand your market

- With insights into the competition and market demand, you can tailor pricing strategies to offer competitive prices, attracting potential clients.
- Track loss of patents / generic entry to stay ahead of market changes.
- Showcase the quality and effectiveness of your products, highlighting how they can enhance drug formulations and meet the needs of potential clients.
- Utilizing data on drugs not currently using an excipient presents an opportunity to offer an alternative formulation, expanding your market.

Find excipient users and anticipate change

TRADENAME	API	COMPANY	NDC	POTENTIAL GENERIC ENTRY	
ALPHAGAN P	brimonidine tartrate	Allergan Inc	0023-9321		
BEVESPI AEROSPHERE	glycopyrrolate and formoterol fumarate	AstraZeneca Pharmaceuticals LP	0310-4600	2030-05-28	
BREZTRI	budesonide, glycopyrrolate, and formoterol fumarate	AstraZeneca Pharmaceuticals LP	0310-4616	2023-07-23	

Identify branded drugs using excipients

Anticipate changes in demand with loss-of-patent / generic entry dates

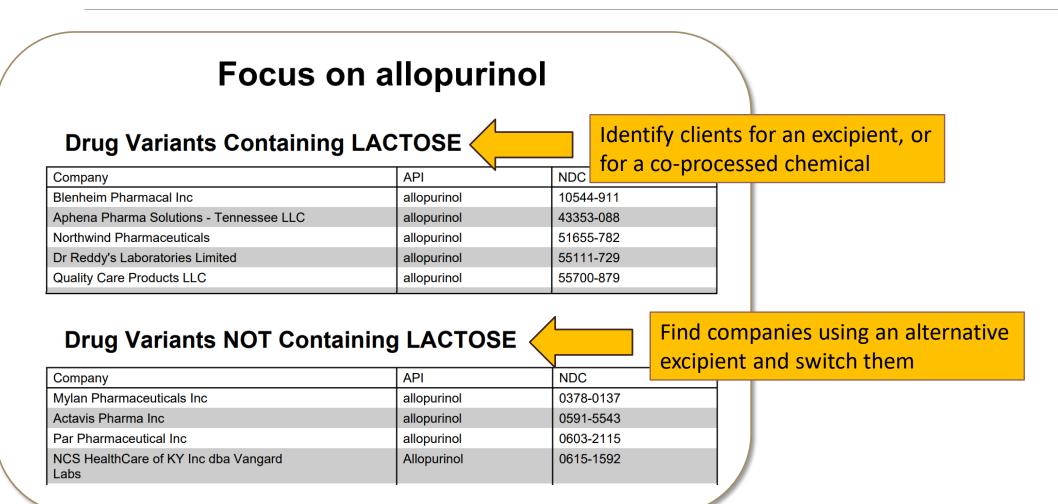

Generic drugs containing TITANIUM DIOXIDE

API	COMPANY	NDC
atomoxetine hydrochloride	Eli Lilly and Company	0002-3227
olanzapine and fluoxetine hydrochloride	Eli Lilly and Company	0002-3230
olanzapine and fluoxetine hydrochloride	Eli Lilly and Company	0002-3231
duloxetine hydrochloride	Eli Lilly and Company	0002-3235
selpercatinib	Eli Lilly and Company	0002-3977

Track individual drug formulations using NDC numbers

Identify drug variants containing, or not containing, each excipient

Profiles on hundreds of excipients
